Ordering a new desktop? We recommend a new monitor too!

We have a number of options available for reasonable prices on the next page. We strongly encourage purchasing a new monitor when you buy a new computer - that way your monitor is also under warranty.

If you do not buy a monitor, it is possible you will need to purchase video adapters to be able to connect your old monitor to your new computer.

If you want a soundbar for your new monitor, you can purchase the Dell Stereo Soundbar AC511M (pictured) for $26.

- Warranty: 4 year AppleCare+ Protection Plan

Upgrade to 256GB Storage for $150

Ordering a new iPad? We recommend some accessories!

iPads are used in the field, in the classroom, and often it can be easier to work directly off of them in the office. Apple offers covers for protection, the apple pencil for handwriting and graphical design uses, and keyboards for turning your tablet into an effective office tool.

The apple accessories are compatible with all the iPads offered in the catalog, and Biology IT is more than happy to assist in purchasing the correct option for your iPad!
MONITORS

M1 - Dell P2222H 22” LCD Monitor - $207
