About BIT

Biology IT is a collaborative effort of the College of Agriculture and Life Sciences and the College of Liberal Arts and Sciences.

We work with faculty, staff and graduate students in the biological sciences to ensure that their computing experience is fast, stable and secure. We provide system support, backup, software licensing, research IT consulting and access to high-performance computers. It includes the following biology-related groups:

Luggage

Luggage is a managed stable release of Drupal 7.x coupled with several features that together make a platform.

The overriding design goal for the Luggage Platform are discrete fully functional features that are independent of the platform and any Drupal theme. When the individual features are combined together a full-featured academic platform emerges.

IOWA STATE UNIVERSITY
Biology Information Technology

The screenshot shows a web browser displaying the "Luggage Showcase" page on the Iowa State University Biology Information Technology (BIT) website. The browser's address bar shows the URL www.biology-it.iastate.edu/luggage_doc/showcase. The website has a red header with the Iowa State University logo and a search bar. Below the header is a navigation bar with links to "Content by Category", "Features", "Guides", "News", "Events", "Github", and "Showcase". The "Showcase" link is highlighted. The main content area is titled "Luggage Sites" and features two dropdown menus: "Site Category" and "Site Managed By", both set to "- Any -". Below these are four featured site cards, each with a thumbnail image, a title, a URL, and a description.

Aaron Gassmann Laboratory | Department of Entomology
<http://www.ent.iastate.edu/dept/faculty/gassmann/>
Commercial cultivation of Bt crops began in 1996 and has provided many benefits to farmers and the agricultural community including effective management of key pests and reduced use of conventional insecticides. In 2012, Bt crops covered over 69 million hectares (170 million acres) worldwide. Most of this area was planted to Bt corn and Bt cotton. In Iowa, over 75% of the corn planted in 2012 produced at least one Bt toxin. The widespread use of this technology places intense selection on pest populations to evolve Bt resistance.

Ag 450 Farm
<http://www.ag450farm.iastate.edu>
The AgEdS450 Farm is the ONLY completely student managed farm at a land grant university in the United States. The AgEdS 450 Farm allows students to be involved in everyday management decisions and practices of a typical central Iowa farm. This is a capstone course for Agricultural Studies Majors.

AgDiscovery
<http://agdiscovery.nrem.iastate.edu>
Iowa's AgDiscovery program helps teenagers learn about careers in Veterinary Medicine, Animal Science, Laboratory Technology and Wildlife Ecology.

Agricultural Endowment
<http://www.endowment.ag.iastate.edu>
The Iowa State University Agricultural Endowment was founded in 1937 to help Iowa farm families survive and thrive. Throughout our history, we have

Luggage Feature Examples

http://www.biology-it.iastate.edu/luggage_doc/luggage-feature-examples

The screenshot shows a web browser window displaying the 'Luggage Feature Examples' page. The page has a red header with the Iowa State University logo and a search bar. Below the header is a navigation bar with links to 'Content by Category', 'Features', 'Guides', 'News', 'Events', 'Github', and 'Showcase'. The main content area is titled 'Luggage Feature Examples' and includes a note about the 'Showcase' menu. It lists various features available in the Luggage platform, such as 'Center for Arthropod Management Technologies', 'Iowa Monarch Conservation Consortium', 'Iowa Concern', and 'Department of Animal Science'. There are also sections for 'Announcements' and 'Blog'. On the right side, there is a sidebar with a 'Page' section containing a list of links to various Luggage features and guides, and a 'More like this' section with links to related content.

Luggage Feature Examples

Note: For an overview of the many sites using Luggage, click the [Showcase](#) menu.

Below is a list of the various features available in the Luggage platform, with a few website examples for each.

Announcements

The Announcement feature is a way to highlight certain information on your Luggage website homepage by utilizing a banner image.

[Center for Arthropod Management Technologies](#)

[Iowa Monarch Conservation Consortium](#)

[Iowa Concern](#)

[Department of Animal Science](#)

Blog

The Blog feature allows people to add blog posts. It is a nice way for a team of bloggers to be highlighted for a unit. This feature also provides a nice page view to promote each individual blogger and their recent blog posts.

Digital Access

<https://www.digitalaccess.iastate.edu/>

The screenshot shows the Iowa State University Digital Access website. The browser window has a single tab titled "Digital Access" and the address bar shows "Secure https://www.digitalaccess.iastate.edu". The website has a red header with the "IOWA STATE UNIVERSITY Digital Access" logo on the left and a search bar on the right. Below the header is a navigation bar with links: "About", "Do it Yourself", "Get Training", "Guidance", "Resources", and "Viewing Options". The main content area features three large cards: "Do It Yourself" with an image of people working on a laptop, "Get Training" with an image of a woman presenting to a group, and "Resources" with an image of two men looking at a laptop. Below these cards is a text block stating: "Digital Access is the site for digital (web) accessibility at Iowa State University. We are committed to providing digital content that is accessible, usable and inclusive for all users. The Web Accessibility Coordinator, the WAC, has the mission to promote and enable digital accessibility at Iowa State. Please, inform us of digital content accessibility issues at digitalaccess@iastate.edu." Below this text is a red button with a yellow icon of three people and a plus sign, labeled "Join our mailing list". To the right of the main content is a "Recent News" section with three entries: "World Wide Web Consortium (W3C) Updates Guides for Planning and Managing Web Accessibility" dated December 27, 2016; "Forms" dated October 20, 2016; and "October Central Iowa UX Meetup" dated October 10, 2016.
